

BARGAINS AND TRADE

Bad Weather Slightly Discounted by Prices.

P.G. IRON'S NEW RECORD

Production Continues Greater—Merchandise Collections Below Normal. Cotton Goods Market Is Somewhat Quieter—Quotations Little Higher Where Changes Are Recorded.

New York, June 14.—Dun & Co.'s weekly review of trade will say to-morrow:

Despite some improvement, weather conditions have continued adverse for retail trade at most points, and business is only stimulated by bargain sales. Prospects for fall distribution are brighter, because of the better crop reports, and manufacturers receive liberal orders for next season. Current conditions, however, are not satisfactory, and mercantile collections are below normal, except in sections where country storekeepers have been enabled to make prompt settlements, because high prices attracted much marketing of last year's grain. The sharp decline in wheat made that market less abnormal, official figures of conditions on June 1 indicating a larger crop than was expected, and since the beginning of the month there has been further improvement.

"Record breaking production of pig iron without causing accumulation is ample evidence of unprecedented activity in the steel industry. Implement makers buy bars regardless of reports that crops are smaller, and the congestion at pipe and sheet mills is not relieved. New business in structural ironwork comes forward steadily, the tonnage this week covering many buildings, viaducts, and track elevations, while the local subway extension and much other contemplated work will soon be in the market.

Cotton Goods Quiet.

"Somewhat quieter conditions prevail in the primary market for cotton goods, although prices are higher where any alteration has occurred. Slightly reduced activity is to be expected after the prolonged period of unseasonable weather, which has been felt in all departments, from retailer to producer, yet the outlook is most encouraging, because of reports from interior jobbers stating that the volume of forward business is greater than a year ago. This does not help current distribution of seasonable goods, however, but producers are sold so far ahead that the present attitude of buyers is unimpaired.

"New England footwear manufacturers report a backward season, although there are indications that fall orders will soon improve. Jobbers have delayed placing contracts later than usual, as the backward season has been so far ahead that the present attitude of buyers is unimpaired.

"New England footwear manufacturers report a backward season, although there are indications that fall orders will soon improve. Jobbers have delayed placing contracts later than usual, as the backward season has been so far ahead that the present attitude of buyers is unimpaired.

LIVE STOCK MARKETS.

New York, June 14.—CATTLE—Receipts, 2,380. Steers steady; bulls, 15c to 16c; cows, 14c to 15c; calves, 12c to 13c; pigs, 10c to 11c; sheep, 8c to 9c; goats, 7c to 8c; horses, 12c to 13c; mules, 10c to 11c; donkeys, 8c to 9c; chickens, 12c to 13c; turkeys, 10c to 11c; ducks, 8c to 9c; geese, 7c to 8c; rabbits, 6c to 7c; pigeons, 5c to 6c; guinea fowls, 4c to 5c; and various other small birds and animals.

Price of Wheat Declines.

"After the publication of the government report there was a rather sharp decline in the price of wheat. The condition and acreage announced by the government were taken as meaning a crop of 62,000,000 bushels. While this is about 100,000,000 bushels less than the phenomenal crop last year, it does not suggest famine conditions, especially when weekly primary receipts point to a very large stock carried over. Some recovery from bottom prices was attributed to bad crop reports from abroad, and to the liberal purchases for export.

Bradstreet's Review.

"Bradstreet's to-morrow will say: "Cotton goods tend to be in the line of strength of prices, a reflection of fears of crop damage affecting future production. Better crop reports have depressed prices of cereals, and other farm products, but cotton follows this tendency at a distance. The June 1 level of all prices showed an upward reaction from earlier months of easing quotations which, in the present weakness, has not altogether offset.

Gold Shipments Cease.

"Gold shipments have ceased for the time being, an impelling force being the call for the return of national deposits which banks must make some provision for. The modern money market is in a state of confusion, and stock-market operations have sunk to the smallest total in two years. "Bank clearings fall behind last week and last year, due to a heavy decrease in New York, where speculation in gold has been very active. May exceeded those of May a year ago by 14.7 per cent."

GRAIN AND PROVISIONS.

Questions formulated by A. O. Brown & Co., Chicago Board of Trade, Money Building, New York, June 14.—Wheat and sunshine, or wheat prospect and prospective, was the weight on the market today. Weather has been bright and warmer in the Northwest, and the sound of the reaper has been coming from the Northwest, where the harvest is well advanced. The modern money market is in a state of confusion, and stock-market operations have sunk to the smallest total in two years.
